To Whom It May Concern,

It is with great pride that I write this letter of highest recommendation for Carlos and Carmen Segrera from CS Orchids. I have been fortunate to know them for over 10 years and throughout this time they have been one of the few persons who do not hesitate to take upon a new challenge with determination and excellence.

Carlos and Carmen are dedicated to excellence and the highest quality of service and work ethics. They are persons of integrity and morals and represent their company, CS Orchids, with honor and pride.

I have had the opportunity to work closely with them on three properties where they provided interior and exterior landscaping services exceptionally with personalized customer service. The quality customer service is above and beyond the competition which is why they were selected at the Alhambra Plaza and West and the BAC Colonnade in Coral Gables.

They are not only dedicated to their professional life but they are also passionate in living a healthy balanced life with their family and friends. They are exceptional at all they do and add value to any organization they represent.

Sincerely,

Renee Hernandez-Borot, RPA
